

# NUEVO COLEGIO DEL PRADO

Science 9th Grade

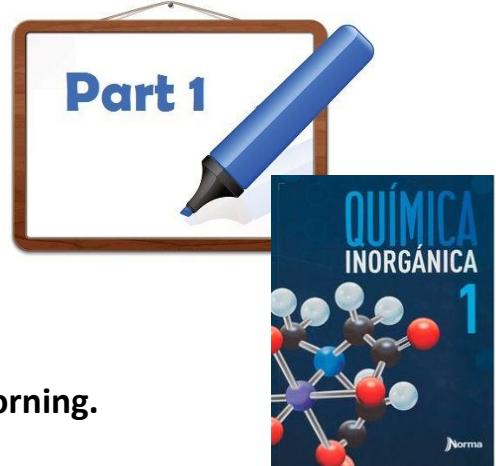

## Guía de Trabajo Semana 5, Mayo 4-8 2020

Email: mrsciencencp@gmail.com

### Learning:

Let's begin the week checking the book. So, investigate about the history of the periodic table.

1. Before the class, **read** on the book:  
Pages 48-51
2. **Watch** the video posted on the blog.
3. **Attend** the zoom online session on Tuesday morning.

### Activity:

4. **Design** a simple infographic or timeline with the most important aspects of the evolution of the periodic table, including the scientists and their contributions.  
(Use the information on the video and book)
5. **Include** in your diagram a comparison between Mendeleev and Moseley's periodic table.

Due date: sunday may 10 2020.

### Advice

There are virtual tools for making infographics or graphs, but I certainly will appreciate those students who do the infographic or timeline with their hands on cardboard or paper.
